

Grace Academy Coventry

Welcome to Grace Academy Coventry and many thanks for taking the time to find out a little more about our fantastic Academy.

In Grace we are totally committed to ensuring every student achieves their potential – learning is at the ‘heart’ of all we do. The Academy delivers a unique and personalised curriculum within an extended day – which adds up to an additional half term of learning every year!

In Grace we expect the highest standards of dress and behaviour. We ensure all students are supported within our unique and exciting College structure and vertical tutoring system. Students in Grace work hard and are successful. However, we also want our students

to have fun, be challenged and to develop into caring, considerate young adults.

Our programme of additional learning activities is exciting and extensive – from fencing to forensic Science with visits annually to Zambia & even the Ricoh Stadium!

In Grace every child matters just a little bit more.

Steve Allen
Principal, Grace Academy Coventry
